

ANDIDRAIN SUSTAINABILITY POLICY

Andidrain Limited recognises that its activities will have impacts upon the world that we live in.

It is the aim of Andidrain to have an overall beneficial effect upon our environment, through the work that we do in improving our surroundings.

We recognise that sustainability encompasses environmental, social and economic concerns and we are committed to seeking continuous improvement in our performance on sustainability.

We will do this by: -

- Complying with all relevant legislation and regulations
- Educating, training and motivating employees to work in a sustainably responsible manner.
- Communicating openly and proactively with colleagues about sustainability issues and best practice, and co-operating with others to develop and promote sustainably sound practices;
- Ensuring that sustainability principles are given due consideration within the business
- Developing a greater understanding of the sustainability issues relevant to our business
- Working with other stakeholders to seek ongoing improvements in sustainability performance
- Encouraging the appropriate use of sustainable products and services
