

Denholm Environmental / Andidrain are an environmentally conscious Company and as such we acknowledge the potential environmental impact that our operations may have on the environment. Our activities include: high and ultra-high water jetting and cold cutting, specialist industrial, chemical and non-intrusive cleaning, surface preparation and coatings application and their associated business administration.

Top management endorses this policy and ensures it is compatible with the context and strategic direction of the Company. Top management in co-ordination with the Environmental Management Representative are accountable for the effectiveness of the environmental management system (EMS) and are responsible for ensuring that it is communicated, understood, implemented and maintained at all levels within the Company and ultimately, that it achieves its intended outcomes.

Top management promotes and is committed to continual improvement of the EMS to enhance environmental performance. This is facilitated through the setting of documented environmental objectives based on our significant environmental aspects, compliance obligations and considering our risks and opportunities. Action plans have been set to achieve objectives and are maintained as part of the EMS internal auditing, monitoring and management review processes. The results of which are communicated to all interested parties, where appropriate.

Top Management is committed to ensuring that the Company:

- Complies with all compliance obligations, where these relate to our environmental aspects.
- Provides employees & others with the resources needed for the EMS, including support, direction & encouragement to fulfil the requirements in line with their role.
- Maintains our registration to the environment management standard ISO 14001: 2015 (DENV certificate number '288185-2019-AE-GBR-UKAS' and AD certificate number '223765'), as defined within the scope of our EMS.
- Strives to integrate the EMS into all business processes.
- Protects the environment, prevents pollution and meets other specific relevant commitment(s).
- Minimises waste to landfill by reducing our waste generation, by segregating & recycling waste where economically & operationally feasible.
- Co-ordinate's business transport so as to reduce consumption.
- Uses energy, water, materials & other natural resources as efficiently as possible, giving particular regard to the long-term sustainability of consumable items.
- Ensures that the environment is considered in the procurement of goods & services as well as with the goods & services we provide to our customers.
- Works with others to encourage commitment, improvement in our local environment.
- Supports other relevant management roles to demonstrate leadership as it applies to their areas of responsibility.
- This policy will be communicated to all employees & organisations working for or on our behalf.

Employees and other organisations are expected to co-operate and assist in the implementation of this policy, whilst ensuring that their own work, so far as is reasonably practicable, is carried out without risk to themselves, others, or the environment.

This policy will be reviewed annually by top management and where deemed necessary will be amended and re-issued. Previous versions of this policy will be archived and are available upon request. A copy of this policy is available to relevant interested parties, upon reasonable request.
